Item#1.
Revised cost table will be sent to you separately. The cost actually does not change, however they could for alternative C if increased incursion of incidents occur into closures. This would increase the law enforcement cost to include a third shift of coverage, similar to alternative B or D costs. The cost for alternative D could also increase if multiple escort services were to occur. This would increase the level of law enforcement cost to include additional law enforcement personnel. All alternatives could increase law enforcement cost just by the level of public noncompliance associated with these sites.

Subject: Fw: CAHA Information needs

Hi Mary (will you coordinate getting this info to Dana?) Mark (see #1 costs)

Below is a short list of the remaining information needed from the park for the EA. Please send to Dana ASAP. Thanks.

Sandy

PM EST

Sandy,

Information needs still outstanding:

1. Park needs to revise cost tables based on new alternatives. Should we contact mark hardgrove directly or will you?
2. The latest snapshot on what ramps are in place permanently and seasonally.
3. AMOY nest numbers and nest success data for 2005.
4. Hatteras Island vehicle counts and other islands if available. We have in a request with Gary Henson, he is out and we need to know who else to contact.
5. We need to know where the major dispersed recreation use goes on for other activities like swimming, sunbathing, jogging, beachwalking, etc. Even it is based on park observations, it would be helpful.

Thanks.
