Item #2

The only ramps that are closed seasonally are ramp #2 located in Bodie Island and ramp #68 located in Ocracoke Island. All other ramps are open year round unless emergency safety closures exist.

Item #4

You should receive the Hatteras Island Vehicle count in a separate email, sent to you by Acting Hatteras Island District Ranger Greg Moore.

Item #5

All major dispersed recreation use (i.e., swimming, jogging, beachwalking, etc.) goes on primarily in all areas where ORV activity occurs. This is where the highest percentage of recreation use is found.

Hi Mary (will you coordinate getting this info to Dana?)
 Mark (see #1 costs)

Below is a short list of the remaining information needed from the park for the EA.
 Please send to Dana ASAP. Thanks.

Sandy

 PM EST

Sandy,

Information needs still outstanding:

1. Park needs to revise cost tables based on new alternatives. Should we contact mark hardgrove directly or will you? 2. The latest snapshot on what ramps are in place permanently and seasonally. 3. AMOY nest numbers and nest success data for 2005.
4. Hatteras Island vehicle counts and other islands if available. We have in a request with Gary Henson, he is out and we need to know who else to contact.
5. We need to know where the major dispersed recreation use goes on for other activities like swimming, sunbathing, jogging, beachwalking, etc. Even it is based on park observations, it would be helpful.

Thanks.
