Hi,

I just have a couple of comments on the WIPL document. First, it should be noted that the 1989 survey by John Fussell was incomplete for WIPLs and did not cover all appropriate habitat. Also, it should be noted in the last paragraph that WIPLs are listed as Significantly Rare in NC. Thank you.

 AM EST Subject: Wilson's Plover

Marcia,

We are all scrambling to get Wilson's Plover and Red Knot into the EA. Can you please give the attached Affected Environment write-up for WIPL a quick going over? I will have one written for the knots later on today.

Also, can you send this on to Sue Cameron or her comments? I do not have an email address for Sue Cameron.

Thank you very much,

Richard
