New nuggets of info keep pouring in...

Apparently there are some pretty large fishing tournaments at the parks in the spring and fall months. Obviously, we do not have all the details yet but can assume that closures would impact these tournaments and, thus, impact socioecon and vu&e. In addition, if tournaments do occur, there could be assumptions of impacts to protected species with increased use.

We may need to just put placeholders in the doc for now while additional info is gathered.

Dana,

Here is info from a phone conversation with Marcia this a.m.

Q: does CAHA issue special use permits for fishing tournaments  
A: yes

Q: have there been any conflicts/ problems between them and resource mgmt  
A: yes, there's one in April on Ocracoke that is a problem because  
1. bird closures are not up because don't have biotech's there yet to put the closures up  
2. it puts a whole lot more people on the beach and even if up closures haven't been large enough to prevent disturbance, have tried to deal with it by narrowing the ORV corridor in areas where would be a bird/ORV conflict so that the area is not used for parking etc. but is open for drive by to get to areas where no conflict

Tournaments also go on all Fall long.

Dear Mr. Belli:

Enclosed is our check for \$200.00 for a special use permit to hold our 21<sup>st</sup> annual surf fishing tournament. We have picked the weekend of April 23<sup>rd</sup> and 24<sup>th</sup>, 2005, pending your approval.

We will be using the same format as past years, stressing fish conservation and beach "respect". We have not yet decided where we will hold meetings, due to construction at the school. We will let you know as soon as the decision is made and look forward to the participation of the N.P.S. at tournament meetings. Any help in expediting the issuance of this permit would be greatly appreciated.

Please forward any necessary forms or additional costs for the permit to the following address:
