Subject: Fw: Details for ORV Plan ISR

Hi Lori,

In her position as Chief of Interpretation (since Jan), Mary is no longer directly involved in the ORV management issue. Mark is out of the office at the moment so here is a response to your questions.

- 1. The Commercial Services Plan - we have that it was expected to be completed by July 2005. Was this completed, and if so when? If not, is there a new projected date? Has not been completed. Just reviewing it now. Needs some work. Person working on it for NPS has since retired. No projected completion date.
2. The transportation study looking at a high speed ferry to Ocracoke - we had this down as to be completed in late 2005. Same questions as above - has it been, if so when, and if not what is the new projected time? Study has made progress but is not completed. Expect to implement tram operation in Ocracoke Village in summer 2007. "High speed ferry" that has been discussed is a private sector passenger shuttle from Hatteras Village to Ocracoke Village. It is not confirmed. May or may not occur.

Hi Mark and Cyndy,

Now that the EA dust has settled, we are doing a bit of clean up here and need to finalize the internal scoping report for the ORV Plan/EIS. I called Mary this morning and realized she was out this week, so I thought I would touch base with the two of you to see if you could answer my questions or point me in the right direction. Basically, when we wrote this, you guys were doing some studies and we need an update on where those are:

1. The Commercial Services Plan - we have that it was expected to be completed by July 2005. Was this completed, and if so when? If not, is there a new projected date?
2. The transportation study looking at a high speed ferry to Ocracoke - we had this down as to be completed in late 2005. Same questions as above - has it been, if so when, and if not what is the new projected time?

Thank you very much for your help!

Take care,
Lori
