Mike Murray, Superintendent

I am asking the NPS to extend the deadline for completion of "The ORV Plan Workbook" by 60 days (March 30, 2008).

Having read and reviewed the 89 pages I do not believe the NPS can expect to receive a comprehensive review and thoughtful response from the interested public in less time. Scheduled public meetings do not begin until Jan 14 and don't conclude until Jan 17. The current schedule only allows 14 days after the last public meeting for many individuals to review and complete "The Workbook". The electronic media is beautiful and has changed the way many people work and recreate but there is still a large segment of the populous that will require hard copy in order to properly respond to this critical issue.

Please be prepared to respond to this request @ tomorrows meeting.

Jim Keene, NCBBA
