---

Dear Dr. Gramman,

It is my understanding that you are conducting a peer review of the document titled: Cape Hatteras National Seashore Visitor Use Study that was conducted by Hans Vogelsong for the National Park Service.

I conducted a formal review of that study on behalf of the Outer Banks Preservation Association (OBPA) through their law firm, Holland and Knight, LLP.

I have presented an oral briefing to Mr. Mike Murray, the Superintendent for CHNS, and he passed a copy of my complete written report and data analysis files to Sandra Hamilton who we understand was going to pass it on to you. However, we cannot confirm that it actually has been passed on to you.

Therefore, I would like your permission to send the entire report to you in electronic format. The report itself and supporting documentation is in MS WORD format. Also, I can send the SPSS data file that was used by Dr. Vogelsong and the statistical runs I extracted from that file in Excel format.

In the report, I include my CV and a list of legal cases in which I have participated as an expert.

If you want to personally check my credentials, you can call my friend Len Berry at the Mays College & Graduate School of Business, Texas A&M University. His phone number is 979-845-0804 or e-mail [BerryLe@tamu.edu](mailto:BerryLe@tamu.edu).
