---

Michael,

I hope and trust that these folks who are trying to close us all down and keep us off the beach can not undue what Congress has done and our Commercial Fisherman will be allowed to work and provide for themselves and their families. I notice that you sent this to Jason Rylander so I will let him speak for his interest group.

Michael we will work hard to preserve your way of life and your means to make a living.

Warren

**Subject:** commercial fishing

Where does the commercial beach fisherman fit it to this beach settlement plan?

Thank you,

Michael O Peele
