Subject: park update

Hi Dana,

1. Mike will send me his notes as far as he got tomorrow. I'll send you my re-draft of the re-named generalized alts descriptions tomorrow, too.
2. By Thursday COB I'll send Mike a re-work of the re-named, generalized descriptions of the draft alternatives (pp. 1-4). This may not be the same number or arrangement as now, but each draft alternative will embody a clearly described, logical, distinct management approach or strategy that will meet all the objectives to a large degree. Criteria used for determining whether an area is S (seasonal), YR (year round) or not a designated route should be included in the description. LB and EQD will need to work on this the next couple days.
3. After agreeing with the park on the redrafted generalized descriptions of the draft alternatives, we'll develop a simplified table that fits the open/closed details into the north to south ramp to ramp geography, e.g. below which loosely lines up with the existing maps. Note this is just a format example, no implication that we're retaining this as is.

Actually I think the table is worth doing along with reworking draft alt descriptions before sending to the park, just to point up any internal inconsistencies within an alternative.

DESIGNATED ORV ROUTES (YR= year round route; S= seasonal route, blank= not a designated route) direction is north to south

Oceanside Location	Alt A	Alt B 1	Alt C	Alt D	Alt E
Ramp 1 to Ramp 2	YR	S		S	
Ramp 2 to Ramp 4	YR	S to MM 2.5; YR from MM 2.5 to Ramp 4	YR	YR south to MM 3.75	YR to MM 3.75; S from MM 3.75 to Ramp 4
Ramp 4 to Bodie Spit	YR	S			YR
Beach fronting tri-village	S	S	S		S
So edge of Salvo to Ramp 27	YR	YR	YR	YR	YR
Ramp 27 to Ramp 30	YR	YR		YR	YR
Ramp 30 to Ramp 34	YR	YR	YR	YR	YR
Ramp 34 to	YR	S		YR	YR

north edge Avon					
beach fronting Avon	S	S	S		S
Ramp 38 to across from Ramp 58	YR	YR	YR	YR	
across from Ramp 58 to Haulover pkg lot	YR	S	YR	YR	

i suggest we work through the description of each alternative until we're satisfied with it, and then move onto a the next one, starting with C which I find the simplest.
