Subject: vogelsong data
HI Sandy,
Attached is what we have from Vogelsong. I think the attached data set is from the interviews (not the counting exercises).

1. We need the description of the variables and how each variable was coded. for example, for the variable "location" how is it defined (the location of the interview?) and how was it coded -- what does 1 equal and 2 , etc.?
2. He also did counts of people per vehicle, people, parked vehicles, and ORVs. I can't tell if that data is part of the spreadsheet or not. I would like the data from each day for each of the locations.

I think that is what we need.
Thanks,
Carol
