file Notice Of Intent against D.O.I. and N.P.S.? Also cost of preparing and
bringing legal suit ?

Bob, I'm going to chat off-line with you and some others whom I know personally about the questions you've raised. This e-mail group contains too many people I don't know or can't identify, or contains people I can identify and wouldn't speak openly in front of. I recognize at least one address on here who sat in all the "green caucus" meetings.

With this group any legal advice I'd give to you via e-mail would not be protected under attorney client privilege. And my philosophy is if it isn't protected there's no point in saying it.

I'll be in touch.

In response to your comment about being mad about what you saw on Thursday, can you clarify that the punitive closure enlargement announced yesterday has resulted in Ramp 43 becoming inaccessible? For this out-of-towner, I get confused sometimes on the wholesale effect of these pre-nesting and breeding closures. I would appreciate the clarification.

Bob wrote:
Would a new entity be required to sign suit so as not
to violate our NegReg charter ?

I think we'll have a good indication of the answer after we see the response from DOI on the requests to have the environmental plaintiff's removed from the committee.

Thanks to everyone for putting in the time, conducting yourselves appropriately, and for being prepared to work. It's always my pleasure to be counted as one of you.

Carla

carla; Thanks for your leadership the last 2 days.I know it was difficult to

keep our group on task at these meetings. Must seem like herding a bunch of cats.I am still boiling mad at what I saw on the beach at Cape Point on Thursday.Also really angry at how those bastards wreaked the proceedings on Friday.Getting angry at myself for not reacting fast enough to work around them and accomplish something. How is your faith? Do you believe little David can still fight Goliath and win? What would be estimate of cost to file Notice Of Intent against D.O.I. and N.P.S.? Also cost of preparing and

bringing legal suit ?Would a new entity be required to sign suit so as not to violate our NegReg charter ? How about a new group named HATTERAS HUMANS ! Regards ; Bob.
