Hi,  
Like everyone else, I am disgusted with the ruling and implementation of the beach closing for birds. It is idiotic and self serving.  
We the taxpayers own this seashore and pay the wages of the NPS, and yet, we are told, by

those who know better, that only birds can use it. Those smarter than us elitists, who are paid and supported by the left, can wander into those areas but no one else can.

Like most people who respect the seashore and have enjoyed it since childhood, I want my children to enjoy to. Now they cannot. Only the birds can.

I personally would be drawn to tears if I ran over a nest of any animal but that nest can be adequately protected by an area of a 100-200 yard diameter or more and man it if you are that concerned. You are paid for it.

We all know that these animals will adapt, as they have for millions of years.

Finally, we not pay more attention to the dopey kids riding around with passengers in the bed of their truck, drinking and littering. They cause a majority of the problems to animals and humans while destroying our seashore.

You are ruining people's livelihoods, traditions and memories for years to come. This is big brother gone wrong again. All involved should hang their heads in shame.
