I just wanted to voice my opinion on your beach closure. every year we spend a week down at the outer banks booking a rental with out of town guests. the main reason we come to your beach is to drive to the point and fish, get away from everything and relax. this is what WAS unique about your area. With your restricted access you have now become like every other

beach. I see no reason after this year for us to come down there because now its just sand and water. I can go to va beach, myrtle beach, nags head etc. it is such a disappointment to us and im sure to many others. We were there last weekend and on a store sign it read "Save a bird, kill an island" I totally agree with this statement.  
We are just so disappointed, will we ever be able to drive to the point again?
