We should try to get the villages more involved with keeping beach equipment off the beach. They are already driving the beaches to empty the garbage cans they have placed out there. I haven't heard of any meetings the villages might hold. Maybe HQ would have the contact info?

Subject NC-CTURTLE: Kure Beach

After 3 false crawls yesterday morning we were hoping for a nest today which did happen - Nest 5 for us. Unfortunately a fox got into the nest and destroyed a few off the top. 7 eggs were found outside the nest but no more damage seemed to be done. We also had another false crawl this morning but mama left behind all the makings of a nest but after hours of digging no eggs could be found. Maybe she'll return tonight.

Also, I've been meaning to share with you all that at the last Kure Beach Town Council meeting an ordinance was passed requiring that all beach equipment (chairs, tents, etc.) be removed from the beach each evening. We have seen town officials patrolling each morning and marking any equipment on the beach with their first warning so it seems they are enforcing for now.
