Mike,

The call went well. In my opinion, all of the group is in favor of permits over passes especially due to the funding differences. Patrick of course had a caveat concerning numbers, how it will be set up, etc. Carla was picking at the CACO/CAHA stats. I basically advised her that the educational component of the permit did in fact reduce the numbers of violations at CACO. Tentative dates for the next call are Wednesday July 30, and Thursday July 31, 2008. Robert will send out notes on this call. At the end of the call, Patrick said it was good discussion and he wished the call was longer.
