Mike-

Our total numbers for intrusions in the 2008 annual report will be different than the numbers in the weekly reports. We try to get the techs to enter their data in a timely fashion but that doesn't always happen. You should probably state that the 2008 information is "preliminary". I pulled the following info from the turtle incident log.

Date	District	Park Mile	Location	Violation Type	Incident Comments
8/21/2008	H	NH36	Awon village (south)	cat	cat tracks in closure
8/21/2008	H	NH26	South of Awon Pier	dog	dog tracks inside filter fencing near nest; nest not disturbed
8/21/2008	H	NH25	Awon village	pedestrian	pedestrian inside expanded closure near shoreline

Subject: intrusion data

Hi Britta,

I am trying to compare the number of intrusions/violations documented in 2008 vs. and equivalent period in 2007 (May 1 through August, if possible). I've used the data in the weekly Resources Management reports. Do you have data for the period August 20-30, 2008 (since the last RM report I've seen is for August 14 - August 20 in 2008 vs. August 24-30 in 2007). Don't worry about trying to add up total for the entire period (I've done that with the data I have). Just need to know if we have data (and what the total is) for August 20-30, 2008. If you don't have the information readily available, I'll just do the comparison through mid-August. If you do have the number of intrusions for August 20-30 2008, then I'll do the comparison from May 1 through the end of August).

Thanks,

Mike Murray
