Please be advised that I am a beachfront property owner in Frisco, NC. I am adamantly opposed to ORV use in front of my home and oppose ORV use in front of any of the villages from Rodanthe to Hatteras Village. Beach driving, especially during the months of March thru November, would adversely affect the home rentals, not to mention create a dangerous situation for pedestrians utilizing the beaches. Please ban the use of ORV's in front of the villages on Hatteras Island.
