Hey Mike,

No big deal but yet again I and my family fished tight up to the closure north of ramp 43. There was only in six hours of fishing one couple who walked down from the old lighthouse area and since they had fishing attire on and we talked to them and they were not concerned at all about us being there, don't count. There was not another person who entered this closure from either end. There were 20 or more ORV's enjoying the beach.

No big deal except where is this great pedestrian group? I fish there, my favorite spot, and just only once in a while do I see anybody in the closure.

I hope you understand my concern, a wonderful Sunday afternoon and no one uses this area at all.

Thanks,

Bob Eakes
