(Document link: Sandra Hamilton)

Thanks, Carol. Yes, if you'll need it anyway for the socio-economic analysis. It'll also be helpful as we're developing DEIS draft chapter 1 where we're addressing the Executive Order on Environmental Justice that on disproportionate impacts on minority and low-income populations. We're working on that now.

Sandy

RE: poverty rate for villages?

Hi Sandy,

We haven't looked for that specifically. It might be available at the census tract level, which should be smaller than a county. The unemployment rate and/or foreclosure rates might be something you can get for the current year. Do you want us to look for it?

Thanks,
Carol

Hi Carol,

In your data gathering have you found economic info that would indicate whether the village residents are above/below the national /state poverty level / rate? For the IPSMS we looked at the 2000 U.S. Census data for Dare and Hyde counties, but are wondering if there's any village data.

Thanks.

Sandy
