Hi Wheat,

Park staff have looked in the archives for the information you requested but cannot find anything, including maps, identifying 30 ORV ramps. See attached for information in 1979 and 1980 proposed plans that identify ramps. I also saw one reference to "Ramps 1-30" but it appeared to mean the ramps numbered "1, 2, 4, ...23, 27, and 30" as opposed to meaning there were actually 30 ramps. I also assume you are asking about the ocean beach access ramps, but not including the soundside access points, which are numbered and sometimes referred to as "ramps."

I hope this helps. If you do come across a map showing 30 ocean-side ramps, I would appreciate a copy.

Subject ramps

Mike,

I hope you've had an exceptional holiday season. You certainly deserve it. All the best to you and your family.

Somewhere in all of the mass of documents you have at your disposal must be a listing and location of the original ramp locations which were numbered 1-30.  
I suspect that 30 was on Ocracoke as that would concur with the nascent planning of CHNSRA.???

Your help is, as always, greatly appreciated.
