Folks,

Please add a tab for the weekly reports for night driving violations. Let me know if this is going to be an issue with the database Michelle set up. See Mike's message below.

Thanks,

Paul K. Stevens

Paul,

Please have the LE staff start tracking "Night driving violations" (verbal warnings, written warnings, and citations) in their weekly reports and in the annual ORV report beginning in 2009. There is diverse interest in the information.

As an aside, this past summer I understood that we had "good compliance" with the night driving restriction as indicated by the traffic counters. Since they could differentiate between blocks of time throughout the 24-hour cycle, but then in the draft ORV report (in the traffic counter section that was eventually dropped from the report) the traffic counters apparently indicated thousands of vehicles on the beach at various locations between 10 pm and 6 pm in August 2008 (i.e., in violation of the night driving restriction). I realize the traffic counters have issues, but think it would be helpful to track the data for violator contacts the same way you do for dogs off leash, so we have some way to assess compliance.

Thanks,

Mike Murray
