Mike, My input follows:

1. Which beach fire policy ? a. Status quo.
2. Why this option? In reality, the 10 p.m. to 6 a.m. night driving prohibition has, for the most part, eliminated beach fires in the BI District, except in front of the villages, campground and Coquina. So if we don't need another rule let's not make one. I also feel that a reasonable beach fire is a valid traditional visitor experience.
3. Require an educational beach fire permit? If we could establish a free, readily available permit (internet, tackle shops, rental agencies, grocery stores campgrounds[NPS and private]), like the night driving permit, then yes. I really think we need to do more in the way of educational information to our visitors.
