Pete and Dave,

I'm still interested in receiving a night driving recommendation from FWS and WRC. Ideally, if there is a joint recommendation that both agencies can heartily support, that would be great. If not, I'd settle for a separate recommendation from each of you. (Or if you have a partial agreement, with some areas of disagreement, I'd take that too.) We are in the process of expeditiously crafting a 4th action alternative from the Committee input, which we are trying to complete by the end of the week, so that our contractors can move forward with the impact analysis. It would be most helpful to receive a recommendation from you by the end of the week too, if that is possible, so I can include it in the new alternative.

Thank you for your assistance!
