Hi Danielle.

Could you print a copy of this email and put it in the admin record tray for CAHA?

Thank you.

~Doug

The info. in the annual reports is from the weekly RM report, but there are specific incident reports on violations that LE prepares. I'm transmitting to Britta and Paul Stevens to verify as they prepare the annual reports/manage the LE function respectively.

Quick (I hope) question:

Is the annual report for each species that summarizes closure violations drawn from the weekly resource field summary reports solely? Is there still a separate set of LE incident reports for closure violations? Thanks.

Sandy
