Subject Re: "Press Release: Access Update for Ramp 27 and Ramp 45"

Please advise all Park Service Rangers that the property behind Cape Hatteras Motel is private. There is no National Seashore beach in this area due to erosion. Park Service employees accessing this section of beach will be considered trespassing. You can thank the ranger who went behind my back and took a picture of my sand fence to send to CAMA. I built that dune myself and have been putting sandfence up for over 37 years and I darn sure don't need some ranger Rick coming along to tell me how to do it. Closing the beaches has many of us near bankruptcy and this sandfence action is the last straw. You have done so much damage to the image of the National Park Service; it will take decades to undo if ever. Dave Dawson-Cape Hatteras Motel-Buxton
