Subject National Park Service

My name is Carol Dillon Dawson, the National Park Service stole my grandmother's land over 100 acres in 1953 and broke every promise made to the people here. I do not allow any employee of the National (Yogi bear) Park Service on my property. I have pictures on the outside of my business buildings of the murders of animals that your rangers have killed. This Federal agency will be exposed, my son and I just got back from Washington DC, we were there for two days , showed videos and pictures, letters and stories of abuse by this worthless Federal agency.

Whenever I see a NPS vehicle or ranger in uniform, it makes me want to vomit! I was born on this island and so were my ancestors, you may have won this first battle, by closing our beaches and murdering animals, all under the false pretense to protect a bird egg. (We eat eggs, most people do) This is not about bird eggs and anyone with a brain larger than a peanut knows this. Now, thanks to our presentations in Washington DC this week, our Congressman and Senators and media know about the real National (worthless, not wanted here) Park Service.

I believe the Einstein quote, "you must be the change you wish to see" well be prepared to see my son's name Ryan Dawson and mine in your face and stripping away your power over Hatteras Island. I can promise the fight started with my father over 45 years ago, he died 35 years ago, but now I am back and have three sons that despise this agency of murderers and will let the truth come out about what your real plans are for Hatteras Island. We are fighting to win back our island, you are not wanted here, your rangers with their guns and starched uniforms don't intimate anyone.

How do you sleep at night knowing that you are responsible for the demise of businesses and lifestyles of hard working Americans? When you look in the mirror, I hope you see the disgust we feel and hate towards what you have done to Hatteras Island and our way of life.

Not respectfully,

Carol Dillon Dawson
