Mike; Correction to original copy: Phrase ; (since 2002) had been omitted. Sorry, BOB

Dear Mike Murray : We have experienced two years under the Consent Decree. What have we learned from this grand experiment conducted by the Audubon Syndicate ? 1) There has been no benefit to wildlife. 2) The monetary cost to society has been well over a million dollars. 3) Economic losses have occurred to island businesses especially motels, campgrounds, restaurants and tackle shops. 4) Over 1000 four legged mammals have been slaughtered under the guise of predator control(since 2002). These same animal species were to be protected by this park's Enabling Legislation. 5) The public has been turned away and denied access to their Recreational Area. 6) Internal Park policies have usurped congressional statutes of law. 7) A majority of the populace and visitors to the islands have developed a deep seated animosity toward the Park Service and many of its employees. 8) It is apparent that the process was never about wildlife protection. This was just a continuation of the Defenders Of Wildlife's program to remove ORV'S from all federal lands. 9) The Decree destroyed any chance for success of Reg-Neg. Don't you think it is time to tell Judge Boyle the truth and ask him to repudiate the Consent Decree ?

Respectfully: BOB DAVIS
