Subject: cumulative impacts language

Lori,

Wherever we refer to "the dredging of Oregon Inlet..." in the various sections about cumulative impacts (e.g., under each impact topic for each alternative), could we please add the following language once in each section (or at least once in the original description of the various cumulative impacts.)

"the dredging of the federally authorized navigation channel at Oregon Inlet..."

I believe the added language will help provide context for the dredging and maybe eliminate some unnecessary confusion about why the dredging is occurring or even allowed.

Thanks,

Mike Murray
