Hi Mike,

I think we could include it, and it may be a good idea to do so, since we have the information. If we're going to use it we probably need to explain how the numbers were derived, e.g. is direct distribution the number left at a tackle shop or visitor contact station? the number left there minus the number retrieved from the site later? The number reported by the tackle shop or visitor contact station that were handed to visitors? Does the "hit counter" count site visits or number of people who printed out a permit, or ??

Thanks.

Sandy
