Did we ever resolve this one? (I have some studies that we could copy to a CD, but I don;t know what Jim is looking for or what studies were posted to the FTP site back then. Any way to tell what studies he is looking for?)

To All:

Unless someone downloaded these reports to their hard drive it appears that I am unable to locate the scientific studies from our end. I will await an answer from the three of you. If no one downloaded the studies (and I did not as the email was sent to Reg Neg members for informational purposes only) then I will advise Jim Harris that

- 1) NPS/OBG park staff do not have the studies and apparently the ftp links only last for a few weeks or a month at the most usually,
- 2) He might try contacting Walker Golder to see if they have copies,
- 3) He can research the documents online himself to see if he can locate them.

Is that an appropriate response?

Hi Cyndy,

I'm not finding an email from Walker or David Rabon with the 4 studies Mike's email to the reg-neg committee refers to. I may have Collazo 1995 in our files and will look for it. I've emailed Walker to ask if he could resend his email to you, if he still has it.

Do you know what scientific studies this link use to go to? Can we find them another way now?

Cyndy

Subject: Link to Scientific Studies

Thank you to Walker for providing NPS with 3 of the studies and to David Rabon for providing a copy of *Collazo et al 1995!*

NPS has posted on the Web the scientific studies that Walker Golder referred to at the February 3 meeting. To access, follow the instructions as described below.

1. Copy the following link into your Internet browser and hit ENTER. For Windows, it is the address block located at the top of Internet Explorer

`ftp://63.220.43.40/CAHA/Science%20Reports/`

2. A window will pop up requesting a username and password. Type the following:

Username: npsftpwin

Password: FTP04npswin

3. A window will open listing the four files. At this point the files can be viewed, printed, or downloaded.

4. When finished, close the browser windows
