Hello Cyndy, Kevin Mc Cabe here. I know some major decisions are being made right now by Mike. The Park needed some changes and hopefully they will benefit everyone. However, please remind Mike that Walker Golder, the main non-negotiable person in all this, use to give windsurfing lessons on the Pond at Cape Point with no regards for any wildlife or birds in the area. Personally, I do not believe he has changed much over the years. Lots of people across N.C. and the United States that are wondering what Audubon has actually done physically and monetarily to help our National Recreational Park. Please see that Mike gets this and thanks again for everything. Regards, Kevin.
