

(Protocols)

Note Clarification Needed: We used the reference title shown in the message below as the reference for the ORV DEIS: Cohen, J.B., Erwin, R.M., French, J.B., Jr., Marion, J.L., and Meyers, J.M., in press, Recommendations for management of endangered species at Cape Hatteras National Seashore: U.S. Geological Survey Open-File Report 2009-1262. Not sure it is the official title of the pending report, as the new introduction section uses a slightly different title: A REVIEW AND SYNTHESIS OF THE SCIENTIFIC INFORMATION RELATED TO THE BIOLOGY AND MANAGEMENT OF SPECIES OF SPECIAL CONCERN AT CAPE HATTERAS NATIONAL SEASHORE, NORTH CAROLINA.

But please confirm the exact official title of the whole new report (i.e., what title appears on the front cover?) with AB and use the official title in our press release.

Thanks,

Mike Murray

Sherr L. Fields -

The final version of the report is now citable as:

Cohen, J.B., Erwin, R.M., French, J.B., Jr., Marion, J.L., and Meyers, J.M., in press, Recommendations for management of endangered species at Cape Hatteras National Seashore: U.S. Geological Survey Open-File Report 2009-1262.

Note that for now, "in press" replaces a publication date, which will be added once the report is formatted. The number of pages will also be added at the end of the citation.

When the formatting is done and it is posted on the web, I will send you the link and a transmittal memo, which will include some of those comments about the process that you sent to us from the Park Superintendent. For a report with this much immediate impact on land management decisions, we will do an announcement that we will post on our web page and through the USGS.

Let me know if you have any questions.

John
