Hi Matt,

It sounds like there is some bad information being circulated. Please understand that under the NEPA process once a major planning document such as the DEIS is released to the public, NPS does not typically provide responses to individual questions about the document until the release of the final environmental impact statement (FEIS), at which time written responses to substantive comments will be provided as part of the FEIS. That said, I hope to assist you in finding the information you are seeking.

For information about the proposed management of the Lighthouse Beach area under the various alternatives, see "Buxton Village Beach to 0.4 mile north of ramp 43" in Chapter 2, Table 7, page 98 of the draft environmental impact statement (DEIS). Note: Under some alternatives, "x" indicates it is designated as a non-ORV area (i.e., open to pedestrians but not to beach driving). If you don't have a copy of the DEIS, an electronic copy is available for public review on the NPS Planning, Environment and Public Comment (PEPC) web site for the project at: <http://parkplanning.nps.gov/caha> (at top of home page, click on "Open for Comment").

I hope this helps.

orv/access rulemaking on hatteras

hey, mike
matt walker here
obviously, the rumor mill is still running amok on the access issues in
cape hatteras

hoping you can confirm or deny one that's particularly troubling:

do any of the alternatives suggest closing access to the groins themselves?
and, if so, which ones?

of course, the other side of this rumor is that they want to expand parking
at the lighthouse, so any info on that would be greatly appreciated as well

thanks so much
matt
