Hi Thayer,

Thank you for checking into this for me. After doing some digging and talking to RTI, it appears that the NPS statistics page does break down those who go to the "Seashore" or beach areas and those who go to the other facilities. The sites provides the methodology for how visitors were counted to confirm this.

I may have a question or two for you which I will get to you this afternoon on some other issues.

Take care,
Lori

Below is a question that you may be able to answer. Essentially, the question is does Outer Banks Group "have a breakdown of beach visitors vs "other" visitors (meaning those at Wright Brothers, and other areas the Seashore manages that are not the beach)."

Please respond directly to Lori Fox with copy to me and Paul. If Paul has the answer and you don't, Paul should respond. Feel free to call Lori if you think that is beneficial or to clarify the question. As background, this is from the contractor who is doing the ORV Management Plan EIS (they are working for NPS) and they're trying to draft responses to comments on the draft document.

Thanks,
Thayer Broili

	FW: Response to ORV EIS public comments	

Thayer,

See Lori's question below regarding breakdown of visitors to the beach vs other non-beach areas within the Seashore.

Again, thank you for your, Britta's and Michelle's time discussing some of the public comments/concern statements. I know you all are very busy, but

the discussions were very helpful.

Regards,
Spence

Hey Spence,

I have a Dr apt at 8:50 MT so can't make this. If you have time at the end,
can you ask Thayer if they have a breakdown of beach visitors vs "other"
visitors (meaning those at Wright Brothers, and other areas the Seashore
manages that are not the beach).

Thanks,
Lori
