There was no change between Alternative F in the DEIS and the revised Alternative F for the FEIS. See. p. 110 on DEIS for wording. I would revise the wording of the response to be consistent with the wording in the DEIS/FEIS, which is a little more bland than how it is drafted in your message below. It remains to be seen what catch phrases and buzz-words we might use (e.g., "share the beach". Use it or not?) so it is better to have neutral wording for now. Not sure the entire context for the response. If the concern had to do with non-ORV users committing a lot of violations, etc. we could re-word the response something like this:

"NPS recognizes the importance of education in improving visitor compliance with resource protection requirements. In addition to the new mandatory education program for ORV users, the park would develop a new voluntary resource education program targeted to non-ORV beach users."

Hi Mike.

The following statement is in the response to a concern statement in the DEIS:

"The park proposes to develop a sustainable, highly visible and effective education program for all beach users that will encourage visitors to "share the beach" with wildlife."

Is this something the park is proposing outside of the education/outreach elements under the action alternatives? (Common to all alternatives is on p.58-59 of the DEIS, and Common to all Action Alternatives is on p. 62 of the DEIS.)

0027842

Thanks.
