Britta,

The total number of shorebird management actions for 2010 is 164. You can find a copy on our shareall. Hard copy has been provided to Thayer and Cyndy.

Marie usually tallies these up at the end of the season. All the closures have been

0028547

removed or replaced with wintering closures. We should be able to get you a total sometime next week.

Subject Shorebird Management Actions

Hi Britta,

We have the following text in Chapter 1 of the ORV plan/EIS. Are we able to add the # of shorebird management actions in 2010 to this or is it too early?

Thanks,
Lori

- In 2007 under the Interim Strategy, which identified the buffer distances that would be used under alternative A, NPS staff implemented a total of 126 shorebird management actions that involved establishing, modifying, or removing fencing around resource closures. In 2009 under the consent decree, which identified the buffer distances that would be used under alternative B, NPS staff implemented a total of 202 shorebird management actions.
