Mike, all,

That's from an unpublished database so "personal communication" should be fine.

Doug (McGee),

I know Britta is gone for several weeks. Any chance you could help with the highlighted question below? Do we have a reference to cite for the comment on nonbreeding AMOY data? (Could it have been from the SECN monitoring or something that NCSU has been doing? Is there a report to cite, etc.?)

Thanks,

Mike Murray

Subject RE: CH 3 comments

Thanks Sandy,

To answer some questions from you and Britta and to ask a few of my own about chapter 3...

In regards to non-breeding plovers, that discussion does come from Cohen et al 2010 (not 2008) and is found on page 7 of that document. For Britta, the text about Green Island being vegetated and largely unusable to plovers does come from that same section. I will leave it in, unless I hear from you that you would like me to remove it.

Britta, on page 232 of what you sent (under non-breeding AMOY), you make a note that the paragraph is back up from 2008-2010 data, do you have a cite for these non breeding observations you would like us to include?

Sandy, for table 30 you ask about including a footnote, one is included for LETE (letter e in the table notes), the species mentioned in Britta's 9/21 email, is there another footnote that needs to be included?

Sandy, for Socioecon, Beach Driving, you made a note that the section needed to be changed per Butch's changes, are these available, and if not do you know when they will be? Also, are we still waiting on language from Carol regarding ramp counts or will Butch's changes cover what we need there?

Many thanks,
Lori

Hi Lori,

Not too many...I used comment balloons to indicate my edits, because track chgs wouldn't give me a new color.

Please be sure the turtle numbers (including footnotes) are updated for the 3 turtle species per Britta's latest information forwarded. I haven't flagged those.

(See attached file: 03_Chapter-3_2nd_Draft_FEIS_093010[1].mbm sh.doc) Sandy
