Subject RE: Beach driving

Hi Lori,

Why would the beach driving description forwarded yesterday go into socio rather than in the Visitor Experience, Number and Distribution of ORVs at the Seashore section? Maybe after Table 37.1?

Thanks.

Sandy

Thanks Sandy,

The attached was inserted in chapter 3. Please see the attached for suggested language back in the visitor use section. Let me know if you have any comments.

last changes are in track changes

The info on p. 291 under Number and Distribution of ORVs at the Seashore, 2nd paragraph needs to be updated and provide a lead-in to the attached, maybe noting the similarity with the counts from 2008 for Memorial Day and July 4th as far as which ramps were most heavily used.

I'm on another call right now., but will be here until 5:30 if you can send me some text to look at. Thanks.

Thanks, Everyone.

CAROL: I changed "we" to "RTI" a few places so it fits better in the
style of the FEIS writing, and I inserted "and" between "were added
together"
and "averaged" in the sentence below:

Each selected day, field staff traveled to two randomly selected
clusters

of ramps and beaches and spent two hours counting the number of vehicle

roundtrips on each of two ORV ramps (the numbers of entrances and exits

were added together averaged to provide the estimated number of
roundtrips

since each vehicle that entered the beach through a vehicle access ramp

also exited the beach, though not necessarily at the same ramp).

If that's not correct and it should stay as written, please let me know.
Here's it is with those changes.

Hi Sandy,
I made a few minor edits.

Carol

0029293

Please let me know ASAP if this works for you. It has "roundtrips" instead of accesses, or entrances, or entrances or exits. Thanks..
