Today these folks walked through one PIPL scrape and within 10 meters of the South Beach PIPL nest.

From the tracks that Doug followed today, it appears they are parking in the campground (campground is currently closed) and coming in over the dunes.

Britta,

Helpful photos. Is staff able to determine from the tracks if the dog walker parks along the interdunal road near Salt Pond Road, or walks in from Ramp 44 (down the interdunal road), or from the campground? In other words, can we tell what his usual travel route is to get to the closure?

Thanks,
