Subject: CAHA rule
Date: 05/02/2011 11:21 AM

I just got off the phone with AJ North at the Regs office. Here's an update on the CAHA rule:

- Proposed rule came back from Solicitor's Office on 4/29/11
- Regs office is making the requested modifications today
- The rule will then go to the AD for Visitor and Resource Protection
- Then it goes to the NPS Chief of Staff and to the Director for his signature
- Once signed, it goes to OMB for review
- Depending on the level of OMB comment, we should be able to publish after they are done (major comments = back to surnaming)

In short, there's no real timeline for when the proposed rule will be ready for publication.
