Kenny,

If you will recall, this past spring we did the field trip to map proposed parking areas, ORV ramps, etc. in each of the districts. Katy is in the process of finalizing maps of the proposed sites. Before we proceed with further planning, I'd like to reduce the number of options for Ramp 63 to one preferred option, but I've misplaced my field notes during the HQ move and don't recall which of the two options for Ramp 63 was better.

Would you please look at the map and re-visit the site with Jocelyn, then let me know which of the two options you two think would be best (based on the best, safest to intersect with Hwy 12 and with the beach; the least manipulation of the dune, the least impacts to vegetation or wildlife habitat, etc.).

Since the map file is large, please "**Reply without Attachment(s)**" by Monday, June 27 to let me know what you recommend.

Proposed Location Ramp 63.pdf

Thanks,

Mike Murray
