Doug,

I am still working on the import tool that will bring the CAHA regulations.gov comments into PEPC. I still have a few bugs to work out for importing comments with uploaded documents, but I am very close. I have to leave for the day soon. I should be able to import the comments Monday morning. At the very least, I will be able to import the ones that don't have uploaded documents then. There are only 122 at this point. If you are expecting a significant amount by Monday, we can ask AJ for an updated export to our FTP site then.

Thanks,

Matt Hunnell
