Hey Jim,

I sincerely agree with your thought process. While I did write my comments and send them by return receipt mail I also think it manifestly unfair to my community. Not only do I have to stop doing that which is needed elsewhere I also have to try to maintain my sense of decorum and control my anger at the unfairness of the whole "plan".

Bob Eakes

PS Give the birders everything they wanted and then more.

Mike

I am truly disappointed that I have not as yet received a reply to my previous message or even an acknowledgement of receipt. We are in a holiday weekend & we are all busy with clean-up but this is the very reason that I made the request for extension.

Please reply or make an announcement prior to Tuesday the 6th.

Jim Keene

Mike

In light of the devastation by Hurricane Irene and the clean-up and repair that will be on going for months if not years, I am formally requesting that you do everything in your power to extend the public comment period on the Proposed ORV Rule (RIN 1024-AD85). Many of the people most affected by Irene are the same people that will be most affected by the Proposed ORV Rule. A minimum extension of 30 days and up to 90 days would seem appropriate. The loss of notes, files, computers, etc. as well as the distractions of recovery will make it difficult if not impossible for many to meet the published September 6, 2011 deadline.

As a member of this community you are intimately aware of our current situation and we anticipate your efforts.

Thank you,

Jim Keene, NCBBA
