Hi David,

The www.regulations.gov website is not controlled by the NPS and it requires additional coordination when we make changes to public comment periods. In brief, it takes longer for the NPS to get the Federal Register Notice published to officially reopen the public comment period until September 19th than it did for the park to issue the press release announcing the decision. The www.regulations.gov website will begin receiving public comments again as soon as the new FR Notice is published, which should be in the next few business days. We will issue another press release once the notice is published.

Subject RE: Hatteras Island Recovery

Mike, "I've had a few people say that they couldn't file their comment electronically. Is this because the time has expired and NPS has not yet changed the settings? This needs to be taken into consideration as its hard enough for the good people on Hatteras Island trying to recover from

Hurricane Irene while having to make comments regarding their future without the system failing them once again! Please look into this yesterday!

Subject: Hatteras Island Recovery

Mike

In light of the devastation by Hurricane Irene and the clean-up and repair that will be on going for months if not years, I am formally requesting that you do everything in your power to extend the public comment period on the Proposed ORV Rule (RIN 1024-AD85). Many of the people most affected by Irene are the same people that will be most affected by the Proposed OV Rule. A minimum extension of 30 days and up to 90 days would seem appropriate. The loss of notes, files, computers, etc. as well as the distractions of recovery will make it difficult if not impossible for many to meet the published September 6, 2011 deadline.

As a member of this community you are intimately aware of our current situation and we anticipate your efforts.

Thank you,

Jim Keene, NCBBA
