Hello Mike,

Kevin Mc Cabe here. Late last week I received an email with a processed form letter from the Audubon Society. They apparently sent them out to thousands of subscribers that know nothing about what is going on within the Cape Hatteras National Seashore. They just want them signed and sent. I find their lies and tactics deceiving, repulsive, and illegal. I encourage you to not let them be part of the public record or even allow them to be submitted. We have a federal lawyer looking into this has I speak.

Regards, Kevin Mc Cabe
