Subject: Young Naturalist Program
Date: 09/22/2011 09:10 AM

Dear Mike Murray,

I think that NPS's young naturalist program for the kids on Hatteras Island is a slap in the face to my community. Close our beaches, kill our economy, and then you want to corrupt our kids to some mind set done and administered by you and yours. It seems very close to what Hitler did with the Nazi youth program.

I have a 5 year son. I know of no one in NPS who I want him to even meet let alone be an instructor or teacher to him.

I think this park service unit needs some serious help. If you have not noticed, my community is having a hard time with the credibility, integrity, and honesty of the local NPS.

Whoever came up with this in the aftermath of hurricane Irene is just a mean person and needs to be fired.

Sincerely yours,

Bob Eakes
