Subject: Request for Assistance to Distribute Information

Dear Proposed RegNeg Participants:

In an effort to improve visitor compliance with beach driving requirements at the National Seashore, among a number of measures CAHA will be implementing, we are in the process of revising our Off-Road Vehicle Use brochure, which provides information on beach driving requirements. We want to improve our delivery system for getting information to more ORV users before they drive on the beach. Toward that end we are seeking the assistance of stakeholder organizations and local businesses to help us distribute the revised information once it is available. The idea is to have the information readily available on websites and at non-NPS visitor centers, tackle shops, rental cottages, and other businesses.

We are developing a list of organizations and businesses that are willing to support us in this effort. As a proposed participant in the negotiated rulemaking process, we ask that your organization assist us with providing the Off-Road Vehicle Use brochure, either in electronic or printed form, to your members, visitors and customers. We will provide you with the materials once they are available. Please let me know if you can make a commitment to assist us with this. Feel free to send me an email or call.

Thank you for your consideration.
