BOB

Thanks for the suggestion. NPS is going to followup. Do you have her contact info?

PAT

Hello Mike and Patrick,

Someone who might be of interest would be Dr. Ruth A. Beck. She comes with high recommendations from the Army Corp of Engineers and is supposed to be able to think outside of the box. I have not contacted her or made a point to my so called peer group.

She is a professor at William and Mary University and I assume you and yours might give her a call if you are interested. I will be glad to make contact and so on if needed.

I suspect anyone who can work with the Corp could probably work with us. According to my source, her work was above board and she was rarely questioned by USFWS or the state of Virginia.

Have a great evening,

Bob Eakes
