Hi Jim,

Thank you for your comments and for your ongoing participation. Some days I, too, wonder if the negotiation process will be productive. As difficult as it is, I remain convinced that it is still by far the best approach to finding a workable long-term solution that will at least partially satisfy the diverse interests of all involved. I am also convinced that the consent decree would NOT make a good long-term plan and believe all on the committee are strongly motivated to find a different approach for the consensus alternative.

Hopefully, we will have a good chance to make progress at the next meeting during the discussion about Cape Point, or at least see if progress, creative thinking and compromise are possible. Then committee members will have the chance to give feedback when DOI conducts the progress review after the June meeting.

Thanks again,

Mike Murray

Please respond to < jkeene@franklineq.com >

Mike,

Although disappointed I have received the response that I expected.

We have and will continue to negotiate for the betterment of

0074860

CAHA in spite
of the road blocks we are asked to hurdle or blindly drive
around.
Frustration is setting in and if progress is not made I may join
them and
sit with my arms folded, looking at the ceiling. They don't
negotiate
because they believe they have won what they are after and will
only sue
again if not given what they were granted not by Judge Boyle but
by DOI &
NPS.

Give us a reason to negotiate, not capitulate. There is more at
stake than
the Point and the non-endangered birds that are endangering your
visitors.

Jim Keene
