Hi Bob,

Good questions. I don't really know what to think about the statements, but if it is bugging you I think it would be good to pursue a clarification. I think it would be appropriate for you to contact each person by email and ask them to clarify their statement (e.g, "I understood you to say _____ ...would you explain it in a little more detail because I want to be sure I understood what you meant" or something like that). If it helps, feel free to copy Patrick Field and me, which might help encourage a response.

Subject Yesterday's meeting?

Hello Mike,

Without trying to complicate the process I would like to hear your views on three different comments which were made yesterday.

Sue Cammeron would not back off of the thought process that NC birds are down yet when questioned about our area her answer was that NC birds are down. Is she here to help or with her own agenda?

0075097

Dave Rabon on turtles - The goal should be 200 to 300% more nest for our seashore.

Jason Rylander - I will have to consult my clients.

I would appreciate a response and thanks for the work. I was on Cape Point today and it was quite a good feeling to hear my friends and kids and all enjoying what this area was designated for.

Thanks,

Bob Eakes
